LAKEVIEW HIGH SCHOOL NEWS - GWCA HELPS KEEP SCHOOL ON THE UPSWING!

The LakeView High School Local School Council meets on the third Tuesday of each month at 5:30 pm in the Social Room. The east side entrance of the school on the south end of the building is open for access. The parking lot is open for those who attend the meetings.

The dates for this years meetings are:

9/16/08 11/18/08 01/20/09 3/17/09 5/19/09 10/21/08 12/16/08 2/17/09 4/21/09 6/tba/09

One of the goals of the School Improvement plan is to build and maintain a good relationship with the community residents. School and neighborhood safety depend on cooperation between the school staff, student body and the community.

GWCA has supported the school with non directed donations to the principal for use in programs designed to enrich the student's experiences during the school year. LakeView students participate in some of our community events and the staff has worked with the community and the police department to keep the neighborhood safe before, during and after school during the school year.

We do play an important role: GWCA helped the school get its swimming pool fixed by writing to the regional education officer, Alderman Shulter and CBOE president Arnie Duncan.

The school is steadily improving its scores on national tests, the faculty is highly committed, and the LSC is attracting more and more parent interest. Please attend the meetings. It is an important part of the process to make LVHS a school the community can be proud of.

LAKEVIEW HIGH SCHOOL LOOKING FOR TUTORS MAKING A DIFFERENCE IN SOMEONE'S LIFE AND GET PAID!

Dear neighbors:

Do you know of any neighborhood ladies/people with at least 60 hours of college hours that would like to be involved in our tutor program at Lake View? It will be on Tuesdays and Thursdays and I'm not quite sure of the times. It will pay \$12-\$15 an hour.

I'll try to briefly explain the program to you. I am 100% behind this program, by the way! I'm on the AVID Team and I just came back from attending a week's conference in Dallas. AVID stands for Achievement Via Individual Determination. It was started in CA twenty years ago by a lady and it has grown nationally over the years! The main focus behind it is to identify students who are in the middle of the road so to speak when it comes to scores and school success. So they will be students with GPAs of 2.0 - 3.2 with a few exceptions. The goal is to identify them as they come into high school and put them into this very rigorous program/instruction and hopefully by their junior year they are taking much harder classes and becoming better prepared for college.

The program has a lot of parts to it. One major part of its success is the tutor program that is done during the school day. The students in the program are scheduled for an AVID Elective class everyday. On certain days the AVID teacher covers certain things and on Tuesdays and Thursdays tutors with at least 60 credit hours come in and work with the students during something like a study hall type of setting. Those details I am not totally 100% sure about.

I was wondering and hoping that maybe you had some neighborhood friends who could possibly get involved in the tutor program.

Don't hesitate to email or call me with questions. To sign up for the program, call Lake View HS and ask to talk to Ms. Procise and she will direct you from there.

Thanks so much, Brian Butterfield Lakeview High School teacher 773-465-2639 bbglass@comcast.net

UPTOWN PUBLIC SAFETY MEETING MINUTES FROM JULY 31st, 2008

Submitted by Rep. Greg Harris

Last night Sen. Heather Steans and I hosted a Town Hall meeting on public safety in Uptown. Having attended numerous CAPS and block club meetings in recent weeks and after hearing from the Uptown business community as well as individual concerned citizens, Sen. Steans and I decided we had to come together as an entire community to address the recent spikes in crime in Uptown.

The meeting was attended by well over 400 people from every walk of life in Uptown. It was an impressive crowd representing the diversity of Uptown: young and old, lifelong residents and new arrivals, gay and straight, rich and low income folks, owners and renters, businesspeople and social service providers....in short, the entire rainbow that makes Uptown a desirable neighborhood in which to live and work.

Everyone was concerned about the recent shooting incidents and the apparent uptick in gang activity. Everyone was also concerned about pulling together as a community to increase enforcement, assist the police, provide better alternatives for youth, enhance the business environment and make all residents feel safer on the streets and in our parks.

Sen. Steans and I chaired the meeting. Participating in the panel were 23rd District Commander Kathy Boehmer, 23rd District Tactical Lieutenant Robert Stasch, Deputy Chief of Patrol Bruce Rottner, Deputy Police Superintendent Bea Cuello and Ald. Schulter's Chief of Staff Dan Luna. Attending the meeting were 46th Ward Ald. Helen Shiller, Ald. Smith's Chief of Staff Doug Fraser and 46th Ward Streets and San Superintendent Don Nowotny.

After two hours of compelling testimony including business owners, building managers, moms whose children had been lured into gangs, parents whose children and grandchildren have been exposed to violence, service providers and dozens of others, it was clear that people learned a lot, wanted to learn more and wanted to work together on community-wide solutions to problems. Broad themes of the areas identified to address include:

- Better communication within the community
- Increased participation in CAPS beat meetings to identify crime hotspots
- Increased police presence, including saturation presence following incidents
- More positive activities for area youth
- Focus on eliminating negative activities like public drinking/drugging, gang loitering, etc.
- More cameras on the streets, buildings and in the parks to deter criminal activities
- Police presence on foot, bicycling or using Segways in the area
- Closer working relationships between major neighborhood organizations, elected officials, public and private institutions
- Focus on securing schools, parks and playlots

As a next step, Sen. Steans and I will be convening a meeting of leaders of key stakeholders in the Uptown community including elected officials, community and business organizations, social service providers, youth service agencies, the Chicago Police Department and others. We will go through the pages of notes and recommendations made at the Town Hall meeting and begin to develop strategies and plans for moving forward.

Following the Uptown leadership meetings, we will convene another Town Hall meeting to present ideas and strategies for discussion by the community, and seek support and participation from the entire neighborhood.

Many, many thanks to the hundreds of people who attended and participated in last night's meeting. Heather and I look forward to working with the community to continue to make Uptown one of the City's most desirable and safest neighborhoods.
